BERKELEYAN IN HAWAII.

Japs and Chinese Ruin the Country.

Scenes of Interest in the Isle Which We Will Soon Annex.

The following are extracts from a letter written by a Berkeley young man who went to Hawaii, to accept a responsible position at Wailuku, Maui:

"There are very few white people on the island, but plenty of Japs and Chinese, who work at different plantations for very bad wages. The church which the white people attend is very small. They have meeting about once a week, and then it is but poorly attended.

"There is also a native church, where services are held twice a week and twice on Sunday. The natives are all great church goers.

"Moonlight nights are very brilliant. Sometimes it is as bright as day. The islands have very heavy rains. One day in another part of the island eleven inches fell. Swimming in the ocean is rather risky on account of the swarms of sharks, but the natives don't mind them very much. Some boys swim among them and never get hurt.

"The mountains are all very high and steep, wild goats thrive and multiply rapidly, although people are beginning to kill them. The water is clearer and bluer than at the coast.

"It is a good joke to natives to find a victim of some money making book, which tells him more about the islands than he could learn in twenty years. One man who was here said that coming in to Honolulu was like going into the infernal regions, but different people have different opinions.

"Peacocks live way up in different parts. They are often trapped and kept as pets. Wild hogs are also found in the mountains."

Cavalry in Camp.

A troup of militia cavalry has gone into camp near the corner of Alcatraz and College avenue.

AN INSULTING STRANGER.

The people of Lorin are greatly annoyed by a stranger who makes a practice of calling on people and offering them small sums, such as 25 cents, for all the flowers, shrubs and trees in the gardens of the persons called on. The proposition is invariably declined, and the stranger immediately becomes insulting.

FINE SUPPLY OF WATER.

Is Located in the Contra Costa Hills.

Engineers Say There is Sufficent to Supply This City.

The county paper of Martinez says: It seems that Simon Blum has a couple of water locations that only await development to prove to be very valuable. The most important one is what is known as the Bear creek water supply. Mr. Blum has located a very feasible site for a reservoir below Bear Creek Falls. These falls are located in the center of Rancho la Boca de la Canada del Pinole, six miles northeast of the town of Berkeley and twelve miles from Oakland. The supply is derived from lakes and springs of pure soft mountain water, from a water shed of 5000 acres of land, entirely free from mineral or alkali.

A report from Civil Engineers G. F. Allardt of Oakland and T. A. McMahon of Martinez shows that the reservoir has a capacity of seven hundred million gallons of water, and that the supply amounts to two hundred thousand gallons per day at the present time. The average rainfall on the water shed for the last twenty-five years, however, has been nineteen inches per annum, which would make an average daily supply to the reservoir of two million gallons.

This reservoir is 535 feet above sea level, and there is an easy grade along the county road for a pipe line to Berkeley, distant twenty miles; to Point Richmond, fifteen miles; and to Crockett and Port Costa, twelve miles — all along county roads. The reservoir site embraces ninety acres of land. Mr. Blum has also located a water supply at the head of Alhambra valley that only needs development to be valuable to Martinez, Crockett and Port Costa. It is located on the Rancho la Boca de la Canada del Pinole, and title acquired in 1898. The reservoir has an elevation of 460 feet above tide water, and according to the estimates of the above civil engineer has a capacity of seventy-five million gallons. About sixty thousand gallons of water, soft and pure, from tunnel and springs, runs through the reservoir daily.

The distance along the county road to this location is four and three-quarter miles from Martinez, nine miles to Port Costa, and eleven miles to Crockett. We understand these water supplies are for sale, and a bargain will be given on application to Simon Blum, Martinez, or to G. F. Allardt, San Francisco.

MEETING OF THE TEACHERS.

Presbyterian Sunday School Monthly Session.

A Business and Social Gathering at the Residence of W. E. Sell.

Last night the teachers and officers of the First Presbyterian Sunday School met in regular monthly session at the home of Mr. Walter E. Sell. Upon entering the guests found themselves in a perfect bower of roses, lilacs and other beautiful flowers, which had been most artistically arranged by William Richardson.

The regular business of the Sunday School was discussed. A committee consisting of Mrs. William Kaye, Miss May McCoy and Mr. Clarence Clark was appointed to arrange for Childrens' Day, which service it was decided to hold in the Sunday School room May 29th. Misses M. Grace Richardson and Katherine Brown and Mrs. Barrows were appointed to decorate the room for the occasion.

As the new Sunday School room is soon to be begun, the school's needs during the time of building were discussed.

Mr. Harry Hillard and Miss M. Grace Richardson were appointed delegates to the State Sunday School convention at Napa the first of May.

After the business meeting adjourned Mr. Sell invited his guests into the dining room, where a well-filled table greeted them.

At a late hour they bade their host good night, after having spent a most delightful evening.

Those present were Mr. and Mrs. William Hathaway, Mr. and Mrs. William Kaye, Mrs. Humphreys, Mrs. William Cowperthwaite, Mrs. Barrows, Alex Ross, C. P. Hoag, Clarence Clark, William Whitney, Miss Louise Suttler, Miss Katherine Brown, Miss Emilie Riggs, Miss May McCoy, Miss May Huddart and Miss M. Grace Richardson.

A Water Tank.

A 10,000-gallon tank is being constructed by the Claremont, University and Ferries Street Railway, for the storage of water from the well which was recently discovered on the company's property on Sacramento street, between Addison street and University avenue.

Sophomore Social.

RODGERS HELD FOR MURDER.

The Preliminary Examination Closed Yesterday.

His Attorneys Labored Hard to Have the Charge Reduced to Manslaughter.

The preliminary examination of Stacey Rodge charged with shooting Ed. Halsey at South Berkeley a couple of weeks ago, came to a close yesterday afternoon. Justice E. L. Lawrence, of Brooklyn Township, before whom the evidence was heard, decided to hold the young man for murder, and he was at once removed to the County Jail.

Attorneys Gibson and Lucas, who represented Rodgers, made a vigorous attempt to have him held for manslaughter. Assistant District Attorney Church contested the proposition. Argument on the question consumed the entire morning.

No attempt will be made to have the young man released on bail.

A Celestial Offender.

The case of Lup Ching, who was arrested last week on a charge of discharging firearms within the city limits, is on trial before Justice Clift today. The following witnesses testified: Joseph McNamara, Henry Ratfish, James Bell and William Shield.

HAS SUED HER HUSBAND.

Mrs. Lenora E. Taylor of this city has brought suit against her husband, W. B. Taylor, to recover $1200 alleged to be due on a contract of separation. On January 5, 1897, the couple agreed to separate, the husband declaring that he would pay $50 a month for the maintenance of Ethel and Fred, the two children and $25 a month as an installment upon the wife's homestead. She alleges that he has defaulted in all of these payments.

THE MORNING GAZETTE.

The publishers of the GAZETTE wish to announce to its patrons and friends that on Monday next the paper will change to a morning edition. TALKS WITH ADVERTISERS.

Advertising is selling and selling is half of business.

Selling means advertising; advertising means making known—by personal effort, window display, signs or any other means of communication. The best form of advertising is that which reaches the largest number of buyers quickly.

Personal solicitation reaches but a few; windows and signs but a few more; newspapers reach everywhere and everybody.

The daily paper is the modern engine of publicity; it gains audience with, and commands the attention and respect of every man and woman, high or low, rich or poor. It is the modern school book for grown up people, the intelligence bureau of civilization, and the one medium through which the retailer can reach at once and effectively, the entire community.—Ad Book.

SUMMER IN BERKELEY.

Summer is coming on apace and people are beginning to arrange for their annual trip to the country. Berkeley will be least of all cities on the coast affected by the annual exodus. It is quite true that a large number of our residents will seek a change but their places will be filled by visitors from other cities. Berkeley is rapidly gaining a reputation as a delightful place wherein to spend the summer. In fact a great many of our people remain in town during the warm season in preference to other places, and those who do leave are impelled by a desire for change of air, as our scenery and climate could not be improved upon.

THE GOLDEN OPPORTUNITY.

In view of the fact that the Valley Road is straining every nerve to complete the Contra Costa tunnel as soon as possible there is reason to believe that trains will be running through it next year. It is about time for Berkeley to make another effort to have the road come to this city. There is not much reason to doubt that we will be successful in our efforts providing we offer sufficient inducements. This is another of the many cases in which the need of a Board of Trade is demonstrated.

SINGLE TAX.

[This department is conducted by the eminent Single Tax advocate, Ralph Hoyt.]

Nothing could be farther from the truth than the assumption that the money question is the most important question confronting the people of the United States. The all-important problem for the people to settle is the land problem. Until that is settled, and settled right, it will matter but little what becomes of any secondary reform, whether it relates to money, transportation, government ownership, or what not. The land question includes the labor question, and the labor question means everything pertaining to the right and the opportunity of each human being to life, liberty and the pursuit of happiness.

The money question is only one of numerous minor questions now being agitated, and whatever the merits of either side the question itself, decided either way, can result in comparatively little good to the country so long as the land question remains as it is. Every reform outside of land reform if put in operation must inevitably increase the profits of the earthlord and thus render access to nature more difficult for all persons except a small privileged class.

A little candid investigation of the subject ought to convince any one with half a mind that such must be the result. Land reform first, other reform afterward. That is the motto of every practical reformer. In comparing the relative importance of these two questions one needs only to consider a few plain, fundamental facts. All wealth is and must be produced by the application of human labor to natural resources. Money is merely a tool of trade. It is not wealth, but simply a convenient agent in the exchange of wealth products. Now comes this question: Which is most important, a tool of trade used in the exchange of products, or the source from which all products are derived? There can be but one answer to this question, and that is on the land side

Another Nuisance.

It was the first time he was being married, and he was naturally a little nervous and upset, but he managed to say "Yes" all right and to keep time to Mendelssohn, sailing down the aisle, and to sign his name in the register without making more than a dozen blots.

He thought then that it was finished, but when they got to the church door they found it was raining.

"Confound it!" he cried, putting up his umbrella. "Another nuisance now!"

And then, though he cannot guess why, the people around all laughed, and his mother-in-law bridled and his wife refused to speak.—Pick Me Up.

The Effect of Environment.

"One of the tallest men I ever knew was a Rhode Islander. He measured nearly 7 feet in height."

"Perhaps he had to grow that way. There was no room for him to spread out."—Chicago Tribune.

Positive Goodness.

This is not necessarily offensive or unduly aggressive. It may be gentleness itself and of rare refinement. To be effective goodness must not be merely negative. To do nothing specially wrong or harmful is not a high condition of moral life. One must be actively and positively good to be of value to himself or any one else. It is well not to push any one down in the struggle of life. It is far better to help some one up. "Do not steal" is good as far as it goes. "Give to the needy" is better and reaches much further. Speak no evil is a difficult rule to follow. Speak lovingly and helpfully is better and easier. Repression is ever painful. Get into the right track, then take off the brakes and open the throttle valve of your soul. There is less danger and more joy and profit in running at good speed than with brakes set and steam down.

MONKEYS AT FOOTBALL.

They Likewise Play Cricket, but Not According to Rule.

Travelers in South Africa have noted the fact that where monkeys congregate in large numbers they also indulge in games of a certain kind. Two of these games seem to resemble cricket and football.

The cricket is of a primitive order. About a dozen monkeys stand in a circle or whatever is akin to the simian idea of a circle. Two of them advance from different extremities of the circle and stop about 15 yards apart, facing each other. The monkey at the southern end of the circle has a cocoanut in his hand. He is the bowler.

The monkey at the other end does not, as you might suppose, wield a full cane bat. His business is to dodge the cocoanut which the bowler aims at his head. The delivery of the ball is tremendously fast, full pitched and fraught with dire results if it "touches the spot." When it does happen to touch the spot—that is, any part of the monkey's body—that monkey is very much out and doesn't even stop to dispute the question.

Another monkey takes his place until he, too, receives his dismissal. It was presumed by the travelers that the game was finished when a majority of monkeys lay nursing their wounds under the friendly shade of a neighboring palm.

The football is of a more advanced type. It is also played with a cocoanut. The game, if anything, is undoubtedly the "socker" game and is played with the feet. Of course there is no goal nor any tactics to speak of, the object of each animal being to keep the ball to himself as much as possible.

Still the competition to get the ball makes it resemble a real game of "footer," and the dexterity exhibited by these peculiar amateurs is surprising and wonderful.

In an evil moment some ambitious monkey may elect to play the Rugby game by snatching up the ball and making off, but the game then develops into war, in which life is sometimes the prize.

No mention is made of a referee, but if there is one about, like a wise and provident monkey, he is probably up a tree.—Brooklyn Times.

SHE BETRAYED HERSELF.

Dipped Her Spoon In the Milk Before the Mush.

The woman mentioned in this history will be called Mrs. Haughty, but she is known in almost every community by other names. She is inclined to do all she can to make other people believe she is somebody and that she is fitted for a higher sphere than the one she is forced by adverse circumstances to live in.

A short time ago Mrs. Haughty called on a neighbor and accepted an invitation to stay to supper. Mush and milk was the principal supper dish, and Mrs. Haughty declared with sundry ejaculations that she had never eaten the delightful compound. The steaming platter of mush was set in the center of the table and a bowl of milk placed before Mrs. Haughty.

"Just help yourself, Mrs. Haughty," remarked the hostess.

"Really, I do not know how to begin," said Mrs. Haughty as she picked up her spoon.

Mrs. Haughty made a move, and one of the children at the table leaned over to her mother and whispered:

"She said she never ate mush and milk, but she dipped her spoon in the milk before she dipped it into the mush."

That little movement gave Mrs. Haughty away, for every lover of mush and milk knows that if the spoon is first dipped into the milk the mush will not stick to it.—Omaha World-Herald.

A Talking Sheep's Head.

John Leitch of Rothesay once when on a visit to Dunoon dropped into the shop of Archie Mains and asked if he had any good sheep's heads.

"Oh, yes," said Mains, "there's as fine a one as ye ever saw," pointing to a black face lying on the floor.

"Are you sure that it is fresh?" said Mr. Leitch.

"Quite sure, sir," replied the butcher. "It's perfectly fresh."

Thereupon Mr. Leitch, who was an admirable ventriloquist, brought from the sheep's head the rather confounding ejaculation: "Oh, what a lee! I'm stinkin."

"Oot o' my shop, yo leein deevil," exclaimed the butcher. "Didn't I kill ye wi' my ain hauns this very mornin?"

And, suiting the action to the words, he kicked the offending sheep's head into the street.

To carry on the joke, Mr. Leitch, observing a fine ox tongue in the window, made it apparently say, "Shame on ye, Archie Mains!"—whereupon the amazed butcher fled precipitately from the shop, leaving it and all it contained at the mercy of his waggish tormentor.—Nuggets.

MOTHER AGAINST DAUGHTER.

Mrs. Ann M. Snyder, widow of the late A. J. Snyder, has filed an answer to the suit of her daughter, Mrs. Emma S. Reinhardt, for $800 claimed to be due on account for housekeeping services rendered on the Napa county ranch, and also a demand for a copy of the account alleged in the complaint to have been settled between the parties on July 1, 1896, and a copy of the account alleged to be due for such services.

In her answer Mrs. Snyder denies that the pretended cause of action is one which concerns the sole and separate property of the plaintiff; that she is or ever was indebted to plaintiff for $800 or any sum whatever for services rendered as housekeeper or on any account, and denies that the services were rendered or performed at her special instance and request and denies that she has not paid the same or any part thereof.

EFFORTS TO REVIVE RUSHING.

The rushing question has been opened by the students of the University. At a meeting of the Associated Students at Stiles hall yesterday, resolutions were presented by Joseph Leggett, '98, as a minority report of W. N. Frickstad '01, and himself, as members of the Executive Committee, declaring that the prohibition laid upon rushing by the student body last fall should apply only to rushes at night and on the campus. The resolutions raised a storm. They have been construed to mean that rushes shall be permitted upon the hills outside of the University grounds, or by day.

It was at last decided to submit the resolutions to a formal ballot of the entire student body from 1 to 4:40 o'clock Tuesday afternoon.

Resolutions were passed indorsing the project of a spectacular freshman Bourdon. The annual Bourdon-Minto burial of the freshman class will take place on Monday evening, April 25th.

The Nazarenes will have a cottage meeting Monday night at the residence of P. R. Bosworth, West Berkeley.

COUNTY TEACHERS' INSTITUTE.

County Superintendent of Schools J. P. Garlick is proposing an innovation for the next County Teachers' Institute, which is to be held in Oakland some time about the middle of September. He seeks to substitute a course of lectures by Professor William James, head of the department of philosophy at Harvard for the usual routine institute work.

If the lectures are given they will be six in number, all bearing on various phases of the science and philosophy of education. One lecture will be delivered each morning and another each afternoon of the three days' session and ample opportunity given to the teachers to discuss the points raised. Professor James last last year gave a course of eight lectures in Chicago before the teachers in that city and the meeting was eminently successful. He is not to be confounded, however, with Professor James who is to give the commencement address at Berkeley next month.

The program for the afternoon session, beginning at 2 o'clock, included papers on "The Value of the Kindergarten to Mothers," by Miss Anna Stoval; "Mothers' Work at the Social Settlement," by Mrs. M. Schermerhorn; "Heredity as a Social Burden," by Mary Roberts Smith, assistant president of sociology at Stanford University; an address by Dr. Dresslar, professor of pedagogy, State University, and discussions on "Home and School Clubs" and "The Value of Child Study to Mothers," the latter led by Mrs. May Cheney of Berkeley.

COMMENCEMENT SPEAKERS.

The academic council of the University yesterday morning decided to do away with the old custom of having a number of student speakers on commencement day. The exercises will begin at 10:30 a. m. on Wednesday, May 18, and the address by Professor E. J. James of Chicago, together with the awarding diplomas and commissions will constitute the programme. President Kellogg has appointed a special committee, consisting of Professors, Soule, Edwards and Magee, to cooperate with Professor Howison of the faculty committees and Professor O'Neill of the Alumni committee, to make arrangements for the graduating exercises.

THE ATHLETES MUST STUDY.

The faculty of the University has decided to exact a higher standard of scholarship from student athletes in the future. At the meeting of the academic council yesterday the following rule was adopted, to go into effect next August:

"No student shall be permitted to take part in any intercollegiate athletic contest (a) who has conditions covering more than seven hours of his college work or (b) who has been reported deficient by more than one instructor, or as grossly deficient by one instructor in the work of the current year."

MURDERED MAN'S ESTATE.

Lizzie Murphy, widow of Patrick Murphy of Temescal, who was shot and killed at his own door on the evening of December 15, 1897, by Frederick Uhl, a neighbor, formerly of Berkeley, has filed her petition for letters of administration on the estate. It is valued at about $1,000. Uhl is now in the Mendocino State Asylum, while his family has gone to San Francisco to reside. Uhl had been insane and was being cared for at home, but evaded the family long enough to do the shooting.

UNIVERSITY RESERVOIR.

Regent J. F. Houghton, chairman of the Committee on Reservoir, yesterday visited the new 300,000 gallon reservoir in Strawberry canyon, which has just been completed.

On Sunday the water from Strawberry creek will be turned into the reservoir by means of the new dam, higher up the canyon, and it is expected that the reservoir will be filled in about a week.

Mains have been laid to the various parts of the University grounds, and Engineer Boardman believes that in addition to furnishing an adequate supply in case of fire, the new reservoir will make it possible to sprinkle the roadways and irrigate the gardens of the college grounds throughout the summer.

C. T. Allen, formerly a student at the University, visited old friends in town yesterday.
